

# ROTARY GIFT OF KNOWLEDGE

The Rotary Club of Clemmons is looking for educational toys and activities, books and games for the young people in GIDE. Examples would be telescopes, magnifying glasses, world globes, wooden activity boards, outdoor sets, microscopes, puzzles, books, etc. We need items for all ages, pre-k through high school. Please search your attics or basements for educational toys that can be put to good use or donate some money so that the items can be purchased. These students need activities that stimulate their minds and have educational value.

Please deliver items to:
